

How to make a paper doll chain

What you will need:

Drawing or construction paper

Scissors

Pencils, markers and crayons

Decorative materials such as ribbon, yarn, glitter, stickers and fabric scraps

Glue

Instructions:

1. Fold a sheet of paper accordion style. The longer the sheet, the more dolls you'll have.
2. Draw your design for the paper dolls. Use the provided template or create your own. Make sure the hands and feet touch the sides of the panel.
3. Cut out the doll pattern, but don't cut along the folds where the parts touch.
4. Unfold and decorate with craft supplies.
